

Parched (I Can Smell the Rain)

MINER

Parched
Parched

MINER & GLASS

The desert heat
Like an oven
It's the living things that suffer

MINER

Thought I saw some water

MINER & GLASS

But I was just melting

MINER

She was my shelter

MINER & GLASS

But I was dreaming
Keeping hope alive

MINER

I can smell the rain

MINER & GLASS

Keeping hope alive

MINER

I can smell the rain

WAGERITE

Calling on the rain to put the fire out

MINER

I am calling on you to quench this fire

WAGERITE

Calling on the rain to put the fire out

MINER

I am begging you to stop this burning

WAGERITE

Calling on the rain to put the fire out

MINER

I am screaming to you to unload the rain clouds

WAGERITE

Calling on the clouds to put the fire out

MINER

I am dying down here while the gears keep turning

WAGERITE

Calling out to put the fire out
Keep hope alive

MINER

I can smell the rain

WAGERITE

Parched
The desert heat

MINER

Pounding me down!
